911 Software
265 S Federal Highway
Suite 353
Deerfield Beach, FL 33441

This letter is to advise you that Global Payments has completed the certification for **911 Software "sold as" CreditLine v4.1.3**. This was completed using the Global Payments Host Applications and EDC Specifications, Version 2013.003. This application was certified for the following:

Transaction Input: **Swiped**
Card Types: **Visa, MasterCard, American Express, Discover, Diners, JCB**
Transactions Supported: **Overrides Trans, Sale, Settlement Batch, Voids, Time-Out Reversals**
Settlement Method: **Terminal Batch Upload**
Communication Type: **Datawire VXX**
Message Format: **Global Text**
Terminal Type: **TA5**
Industry: **Retail**

This application is certified to comply with the requirements related to MasterCard and Visa's interchange compliance programs. Interchange fee qualifications may vary dependent upon the merchant's processing requirements; therefore, Global Payments shall have no liability in the event this application does not qualify for the lowest interchange fee of any payment system.

Please contact Global Payments' 24 hours, 7 days 3PAP Support Help Desk at 1-800-777-0225 if you need to verify general information (i.e. Bank and Merchant Numbers, Authorization and Settlement Numbers, and Settlements). This certification does not imply in any manner that such hardware is supported by Global Payments with regard to functionality or application design.

This certification applies only to the hardware and software application used at the time of certification testing. Any modifications to the application code or the hardware will require re-certification.

To complete the certification, please sign this letter and fax it to my attention at (770) 829-8304. If you have any additional questions, please do not hesitate to contact me at cert.questions@globalpay.com.

Best Regards,

Becky DeGeorgis
