

## Notice: Completion of the Datawire VXN Compliance Test

This is to certify that the following has successfully completed their Datawire VXN Compliance Testing and is authorized to proceed to schedule and perform any Processor specific Validation / Certification Test requirements:

Datawire Project Number:	843
Date Completed:	Aug 30, 2007
Vendor:	911 Software
Product Name:	CreditLine
Product Version:	3.03
Datawire VXN API:	DLL 4.2.0.15
Platform:	North - PrePaid
Listed on MAS as:	"911 / CreditLine (Pre-Paid)"

### Datawire Application Compliance Criteria:

- Datawire VXN with Self-Registration Service (SRS) functionality.
- Setup and configuration of VXN specific parameters.
- Success path of Authorization type transactions.
  
- Datawire VXN Error reporting and handling requirements.

Note: It is the responsibility of the Vendor to ensure that the Datawire ID is stored securely.

The test data collection and compliance test has been performed using the 911 CreditLine Version 3.03 application.

### Conditions of Compliance

It is the responsibility of the vendor to ensure the Datawire Compliance Testing is scheduled at the end of the application's design cycle in order to minimize the risk introduced by potential code churn. Datawire VXN Compliance will remain in effect until modifications to the application software or payment engine are made that could impact the Datawire VXN Compliance Criteria outlined above. At that time it is the responsibility of the Vendor to inform Datawire of such modifications and if required, a re-certification session will be scheduled.
